

**Republican First Assembly District Convention.**  
The republican assembly district convention for first assembly district, of Rock county, will meet at Fosterville on Wednesday, April 23, 1884, at 10 o'clock a. m., to choose delegates to the republican state and congressional district conventions, and to transact such other business as may come before the convention.

**CHAMBERS.**

First assembly district committee.

What is the use of making eighty long and dry speeches on a tariff bill that can not pass?

Take Mr. Blaine as an illustration, the country can now see how happy a man can be when he retires from politics.

To a showman who can't find a white elephant, or can not have one painted properly, Blaine would be the next best thing.

The most polished actor on the stage of events at the present time is Mr. Arthur. While the whole country is going wild over the presidency, the president himself is as cool as Grant at Petersburg.

Newspaper gossip has it that Alfred Cowles, the business manager of the Chicago Tribune, says the Tribune annually pays 50 per cent dividends on an investment of \$500,000. The stock, of which Mr. Cowles owns a controlling interest, is valued at \$1,000,000 and the profits are 25 per cent on that.

Probably Miss Christine Nilsson, has heard of Washington praying before he went into a battle. It is said she never goes on the stage without trepidation and when she feels weak or has an important part always kneels down and says her prayers. But these devotions never take place when she has a small audience.

It will occur to every thoughtful republican that the success of the party is more to be desired than the advancement of any one man. Those who have favorite candidates should not lose sight of the important fact that the man who is most likely to solidify the party and win in the contest, is the man to nominate. The success of the party and its principles should be first considered, and on this depends the election of a republican president in 1884.

A short time ago the news was sent from Washington that an order had been issued in that city, presumably by some of the republican delegation in congress, that Mr. E. W. Hayes should not be allowed to go to the republican state delegate convention, and further that he should not be permitted to go as a delegate to the national convention. It is now believed that the report was gotten up by the democrats, and it is further claimed at Madison that Senators Sawyer and Cameron knew nothing of any such action being taken by any republican. They believe it was just in circulation for the express purpose of making trouble in the republican party in this state.

The Philadelphia Times probably speaks near the truth in those lines: "Colonel Ingersoll made himself and his candidate famous in 1876 by his 'plumed knight' speech at Cincinnati. In 1880 he didn't nominate Blaine, because Blaine's friends thought the colonel's want of religion would tell against his candidate. In 1884 he won't make a speech for anybody, because his defense of assassins of late has led the friends of all candidates to distrust him. The jolly colonel bids fair to find out that a certain amount of religion and honesty are considered necessary to give a candidate standing before the public and that a man who has no religion and appears in the role of friend to public assassins is likely to damage any candidate he may choose to support."

#### ABOUT MR. BLAINE.

An esteemed friend, who is an enthusiastic Blaine man, wrote a communication for the Gazette on Monday in answer to an editorial which appeared in this paper on Saturday regarding Blaine and his chances. Our correspondent seems to think that we gave no good reason why Blaine should not be nominated and elected, but gave abundant reason why he should be. He then asks these questions:

You say Blaine received next to the highest number of votes in 1880, and it looks as though history would repeat itself, so far as he is concerned. Do you mean to say that the people's choice may again be defeated by a few ambitious leaders? Do you think the 300 will again attempt the role of 1880? If so, will you please tell the good people when they may hope to manage their own affairs? While the Gazette gave Blaine's strong points, and gave him credit for brilliant abilities, for splendid statesmanship, for many years of valuable public service, and for moral courage that neither the vaunting rebels and the democracy of the house nor the vassalage of hell could shake, it did show that there was a strong probability that the bitterness of factions could defeat him in the convention, and that jealousy and the darts of malice on the one hand, and the mud machines of the enemy on the other, would overthrow him in case he was nominated. The great point to be considered is whether Blaine is as certain of carrying New York as Arthur, Edmunds, or General Sherman. The candidate who wins that state gains the presidency, and the one who loses it goes down in defeat.

The Gazette does not acknowledge the existence of the 300 in this campaign. It is a curious fact that some of those who wore the collar of 300 four years ago, are going to Chicago shouting for Blaine! The whirling of time—and a very short time—has brought this strange thing to pass.

There is no telling when "the good people" may hope to manage their own affairs. Political parties are frequently made up of factions, each governed by men more or less ambitious to serve

themselves best. The story of fallen political heroes, is a pathetic chapter of history. The defeat of Webster, of Clay, of Douglas, of the lamented Greeley, and of Blaine in 1876 and 1880, show the emptiness of all human ambition and the ingratitude of political parties.

#### WHOLESALE SLAUGHTER.

Another Frightful Massacre of Men, Women and Children.

The Banks of the Historic Nile Suck Up the Blood of 2,000 People—Sleazy Captured—Horror at a Circus.

PARIS, April 22.—The following correspondence from Cairo sends the following details of the recent bloody massacre. Three hundred Egyptian troops and 600 non-combatants preferring to make the hazardous attempt to march to Berber to starving at Shendi, set out from the latter place the 15th inst. Part of the number went slowly by steamer down the river, while the others marched along the river bank. When two hours' march from Shendi they were attacked by the Arabs, and after a short fight all the troops excepting a few were massacred. The Arabs afterwards captured Shendi.

The Egyptian troops there had discarded their arms and uniforms in the hope of being spared. Few, however, escaped the general massacre. The women and children were children were slaughtered, many of them refugees from Khartoum.

**Gordon Indignant.**  
LONDON, April 22.—The Standard says that Gen. Gordon has telegraphed Sir Evelyn Baring, expressing his indignation at being deserted by the English government in his hour of necessity. He declares his intention to cut himself loose from the government entirely, and act as shall seem best for himself and his companies. He wishes it to be understood that he disclaims all responsibility for any bloodshed that may hereafter occur in the Sudan, and all "blood guiltiness" must rest upon the government.

**Help Wanted at Berber.**  
CAIRO, April 22.—Major Fasha has telegraphed from Berber asking if troops are to be sent to his assistance. If not, he says he wants instructions prior to making the best possible terms with El Mahdi, as he will be unable to hold out much longer.

**Going to Relieve Khartoum.**  
LONDON, April 22.—The Standard is credibly informed that all the available Egyptian troops, comprising all branches of the military service, will start from Cairo for Khartoum on the 25th.

**Terrible Panic at a Circus.**  
TINIA, April 22.—During a performance in the Circus at Tinia, the roof of the structure fell in. The lights were extinguished and a terrible panic ensued, which increased by an outbreak of fire. Five dead bodies and 100 wounded have been carried to the hospital. A large number of persons are missing.

**English Grain Trade.**  
LONDON, April 22.—The Mark Lane Express, in its weekly review of the grain trade, says: "Cold winds checked wheat, and some is losing color. The wire-worm did damage on the lighter soils. The demand during the week has improved. Sellers were unable to obtain higher rates. Mails in better request and advanced 1/2d on Wednesday. Oats advanced 1/2d. Trade in cargoes off coast very quiet—for to arrive, three sold, one was withdrawn and three remained. Cargoes on passage and for shipment stronger. Sales of English wheat during the week 40,331 quarters at 37s 8d per quarter, against 54,556 quarters at 41s 8d for the corresponding week last year.

**Their Sentences Confirmed.**  
VIENNA, April 22.—The emperor has confirmed the sentence of Hugo Schenck and Karl Schossarek, the servant-girl murderers. Both will be executed. Schenck, who was arrested for murdering four women, partly confessed his crimes, but denied some of the charges. He confessed to one crime which none suspected, and used to have knives and aunt and niece of the name of Tina. It is stated that a band of at least sixteen persons all lived in one house in the remote suburb of Rudolphsdorf, near Vienna, and planned these murders. Hugo Schenck was the member of the gang entrusted with the work of enticing the girls away and murdering them with Schossarek's aid.

**A Prince to Reside in Ireland.**  
LONDON, April 22.—It is reported that Prince Victor of Wales, on attaining his majority, which occurs at the beginning of next year, will be raised to the peerage, with the title of duke of Devon, and will then reside in Ireland. It is also stated that he will enter the Royal Irish volunteers.

**Reducing Wages.**  
LONDON, April 22.—The arbitrator who on the question of wages in the manufacturing iron trade in northern England was referred decided upon a reduction of 2 1/2 per cent. The employers demanded a reduction of 10 per cent.

**Disastrous Fire.**  
LONDON, April 22.—Belmont castle, Perthshire, the seat of Earl Warriston, has been burned to the ground. A number of valuable paintings and other works of art, many of which can never be replaced, were also destroyed.

**The Pope's Anti-Masonic Letter.**  
PARIS, April 22.—The Republic says editorially that the pope's anti-Masonic encyclical letter only excites compassion.

**A Mining Town Sinking Into the Earth.**  
SALINEVILLE, Ohio, April 22.—It is noticed that the ground immediately above Kirt's coal bank is beginning to crack and break. Nothing was thought of it until parts of their yards and houses were found to be sinking, and no bottom was found in their wells. The great amount of coal taken from the hill is the cause of the breaking and caving in, and there are those who fear that more serious damage may result. About 16 o'clock William Kerns, 21 years old, was crushed to death beneath coal, slates and dust, which caved in upon him while at work in a gallery at the Hazy mine, in the upper part of the town.

**Crazed by Her Child's Disappearance.**  
BRIDGEPORT, Conn., April 22.—Miss Annie Topp, the 16-year-old daughter of George Topp, disappeared from her home last week, and has not since been heard from. Her disappearance was kept secret till her daughter became violently insane through her daughter's absence. The girl, who was well educated, very pretty and well developed, had attended a skating rink during the winter with several young men, none of whom have been heard from since.

**Going Back to Work.**  
PHILADELPHIA, April 22.—Thirty of the hands formerly employed at the Franklin & Co.'s shoe factory in this city have resumed work. They go back at the old scale of wages. Others will be restored to their former positions this week.

**Ayer's Sarsaparilla vitalizes and purifies the blood. If you feel dull and languid you need it.**

Do not suffer from indigestion. Baxter's Mandrake Bitters will cure you. Sold by Stearns & Baker. Price 25 cents.

#### EFFECT OF DULL TIMES.

**Large Discharge of Men at the Baldwin Locomotive Works.**

PHILADELPHIA, April 22.—A good deal of uneasiness exists among the employees of Baldwin locomotive works over the discharge of about 100 men, and the rumor is that this is but the beginning of discharges that will materially reduce the number of workmen in these great industrial works. The Baldwin locomotive works have been running to their full capacity for several years, and have averaged 550 locomotives a year, or over twelve a week. It turns out this amount of work as high as 5,000 men have been employed, and the stoppage of only one of these works would mean a reduction of such a great industry not only involves privation to the workmen, but a loss of trade to storekeepers and marketmen, of rent to house-owners, and hard times to the employed and those whom they deal, represented by no small number of people.

A member of the firm says: "The discharges will be continued until the present working force of 3,000 has been reduced to about 2,000, unless other work comes in. The discharges will probably end by the 1st of June."

"What is the cause of this falling off in orders?" was asked.  
"Because," he replied—and he was particular that in this his exact words should be taken—railroads have been carrying freight and passenger cars at such low rates that they are compelled to reduce their expenses, and one of the places to retrench in is the motive power.

"Does the falling off in patronage come from the great trunk lines, or from the contributing or newly-built lines?"  
"The falling off is general, and extends to foreign as well as home orders. We have had until recently, for instance, always in erection twenty to forty engines a year for Australia, and this market is now entirely closed—that is, the Australians are buying no more engines just now. Other shops have long since been reducing their force. The works at Paterson, N. J., Dunick, N. Y., Rome, N. Y., and Taunton, Mass., are all slack of work, and have been doing comparatively little for some months or more. Other machine-shops in this city are all on short force and discharging hands."

#### THE WHISKY POOL.

**Attempt at Cincinnati to Prevent a Break-Up.**

CINCINNATI, April 22.—There were no sales of whisky and consequently no quotations were made. Had there been sales the price would have been \$1.05 or lower. Members of the pool were in the session at the Burnett house the greater part of the morning, with "Buffalo" Miller in the chair. At 1 o'clock the meeting broke up with an agreement having been reached. The members were in bad humor and would communicate but little. Mr. Miller said it looked very much as though the pool was broken up, at 3 o'clock another meeting was held, which was adjourned at 7 o'clock with things in better shape. It had been agreed that the price of whisky should be \$1.10, and some of the members were hopeful that the pool could be re-established. There has been \$100,000 advanced by the pool to Porter firms for leading their surplus goods. The prices advanced were \$1.12 for highwines, \$1.13 for alcohol, and \$1.14 for spirits. Should the pool go to pieces there will be heavy loss on these goods. Another source of loss would be the sum paid to distillers who have closed up for their capacity. It is argued that the inducement to hold together in order to suffer these losses, and also that various debts may be first wiped out, will be sufficiently strong to result in the pool being maintained at least temporarily. Should this be done the production of distilleries in the pool will be reduced from 30 to 25 per cent of their capacity, and June 1 they will probably all shut down.

#### ON FIRE AT SEA.

**A Vessel Voyages 250 Miles with Fire in Her Hold.**

BALTIMORE, April 22.—The French steamer Marsulieu, from New Orleans bound for Bordeaux, was discovered to be on fire three days after leaving New Orleans. A terrific fire was prevailing at the time. A hatch was opened and a large quantity of cotton, but the fire was so intense that the crew and passengers, though working with the energy of men anxious to save their lives, had to abandon operations—not, however, before several cases of asphyxia occurred. The hatch was then lashed down, and it was decided to sail for Bermuda, 250 miles distant. On arriving there, with the assistance of the naval authorities, the fire was finally extinguished. Had the deck of the vessel been entirely of wood nothing could have saved the ship.

#### Famine Rumors Denied.

CHARLESTON, S. C., April 22.—The wild rumors of impending famine in South Carolina are entirely without foundation. A careful canvass of the condition of seven counties where great destitution was said to exist shows that there is not a single case of suffering that cannot be relieved by local agencies. In Marion county the situation was said to be alarming. In a special W. J. Montgomery, editor of The Post Index, says that there will be no destitution in that county that need cause alarm and that crops be relieved with the country. "The cause of the present scarcity of provisions is the short crop of last year, which has seriously affected the live farmers and reduced many of them to laborers for wages, thus reducing more labor than the farmers in their present impoverished condition are able to employ and furnish with supplies."

#### Base Ball.

WASHINGTON, April 22.—Wilmington, 7; Washington, 1.  
BALTIMORE, April 22.—Baltimore, 5; Cleveland, 3. The Baltimore Union and the Nationals (Union), of Washington, played here. Score: Baltimore Union, 13; Nationals, 1.  
BROOKLYN, April 22.—Brooklyn, 10; Providence, 8.  
PHILADELPHIA, April 22.—Boston, 11; Keystones, 5.  
INDIANAPOLIS, April 22.—Detroit, 12; Indianapolis, 5.  
NEW YORK, April 22.—Boston, 5; Metropolitan, 2.

**Balance on the Wrong Side.**  
PHILA, Pa., April 22.—The house of Cochran & Young, paper manufacturers and dealers in rag and paper materials, has been closed upon executors amounting to \$37,757. Mortgages entered upon the executions and other claims, it is estimated, will amount to \$130,000. The heaviest judgment is held by Eric perrier. The embargo was due to the failure of a Buffalo house and the rapid decline in the price of stock. Assets \$80,000.

**Emancipation Celebration.**  
RICHMOND, Va., April 22.—The anniversary of emancipation of the slaves of the south was celebrated here by a general parade of the colored state volunteer troops and colored societies.

#### State of Legislation in the House.

WASHINGTON CITY, April 21.—But little progress has been made with the public business by the house during the past week. The important work done was the passage of Mr. Tappan's labor statistics bill. Two days have been given to the big guns on the tariff bill. There are nearly two hundred members who have asked the speaker for recognition, and whose names are on the list to be recognized after the remaining members of the ways and means committee have had their say. Tariff discussion is likely to occupy the week—except Monday and Friday—and, perhaps, a couple of weeks longer. The Congressional Record has, although out of the way of print, already reached the size of the ordinary volume for the month, and a new volume will be begun. Tariff speeches, with leave to print without delivery, will make another volume before the month expires.

Impressed with the necessity of further reports, the committee have become sluggish, and few meetings are being held, save by the ways and means, appropriations, river and harbor, and such others as are privileged to report at any time. The military and naval bills are the only bills actually out of the way. The naval bill has come back from the senate in such shape that it is likely to occupy as much time as the original bill. The differences of views between the house and senate already reached the size of most of the other general appropriation bills more than probable. In fact the chances are that senate amendments will cause as much debate as was had on the bills when first before the house. To dispose of the appropriation and tariff bills, and even a fraction of the 235 bills embodied in general legislation now on the calendars, will require much closer attention to business than has thus far been manifested, or the session will be protracted into the fall months.

#### Points of the Bankruptcy Bill.

WASHINGTON CITY, April 21.—Senator Hoar, who is one of the chief managers of the bankruptcy bill, says that he can only speak in general terms as to the reduction in cost of bankruptcy proceedings under the bill now pending in the senate. He can say that there will be a very great diminution both in cost and time. Register fees are done away with. The regular fee in bankruptcy will receive a salary, and the entire amount paid to the government will be \$50 and 1 per cent. of the net assets. In each judicial circuit an inspector will have special charge of all proceedings in bankruptcy. His duties will be to keep himself informed as to the status of all proceedings, and to see that all are finally settled with the utmost rapidity consistent with the rights of all concerned.

#### The Latest from London.

CAIRO, April 21.—Gen. Gordon, on the 21st, telegraphed to Baker Pasha that he had provisions for five months. Khartoum was surrounded by rebels, consisting mainly of 500 brave tribesmen and 2,500 ragged Arab Senaar, Kassala, Dongola, and Berber were still safe. He would appeal to the English and American public for \$1,000,000 to aid him in his operations. The loyalty of the people of Khartoum, and his own critical position, justified him, he thought, in appealing for money. He would appoint Zoubir Pasha to the command of the troops.

#### The Outflow of Gold.

WASHINGTON CITY, April 21.—For the last ten days of April the decrease of the gold reserve in the treasury was \$2,500,000, and from the highest point in March a decrease of nearly \$5,000,000 is shown. On Saturday \$3,000,000 in gold went from New York to Europe. It is said that this decrease of the gold reserve in the treasury will prevent a bond call being made this month to mature on May 1, and that no further call can be made until the flow of gold takes a turn in this direction.
